

Press Release  
7 May, 2014

## **Karsten Sauer appointed new Managing Director**

**SINGLE Temperiertechnik GmbH, Hochdorf, has appointed Karsten Sauer (41) as new Managing Director. German-born Karsten Sauer has extensive leadership experience and professional knowledge. On 1 April, 2014, he took over from Frank Spork, who was appointed Interim Manager in December 2013.**

During his career, Dipl.-Wirt.-Ing. Karsten Sauer worked for DaimlerChrysler in Germany and South Africa and held several executive positions with a focus on lean manufacturing, process quality and production systems. He was Head of Lean Manufacturing EMEA at Fresenius Medical Care Deutschland and Manager Automotive at A.T. Kearney. In his last position, Karsten Sauer worked as Director Operations EMEA for US company Belden in Ettlingen and Neckartenzlingen.

### **SINGLE in profile**

SINGLE has been developing, producing and selling high-performance temperature control systems for more than 45 years. The company's product portfolio consists of water- and oil-operated, high-quality temperature control systems, cooling technology as well as tailor-made and customised solutions. SINGLE uses only top-quality components and materials. Long-standing customers testify to the ease-of-use and the reliable operation of SINGLE systems even under a high workload.

SINGLE offers a complete standard range of oil- and pressurised-water-operated systems with maximum heating capacities of 144 kW and temperatures of between -40°C and +350°C. In addition to this, SINGLE provides extensive engineering and caters to all phases of the process chain with systems from one source – from initial product conception, design, production and final assembly of temperature control technology systems right through to the installation's initial operation.

In addition to plastics processors and manufacturers of plastics processing machines, SINGLE caters to customers in the die-casting, chemical and pharmaceutical industry as well as to the metal plating industry, the food production segment and is used for test bench technology and many more applications.

A network of regional sales partners and service points as well as subsidiaries in the US and China are the cornerstones of SINGLE's international presence. Services and after-sales support on all temperature-control related matters, commissioning and on- and off-site training complete SINGLE's portfolio. SINGLE is certified to EN ISO 9001, has technology and manufacturer certifications that meet the European Pressure Equipment Directive (PED) and complies with standards such as UL and regional directives to CSA and GOST.

The company, which employs about 140 people at its facility in Hochdorf near Stuttgart/Germany, has been a member of Looser Holding AG of Winterthur/Switzerland since 2006.
